

THE *FUTURE* OF FINANCE

Bitcoin mining is the process of creating new bitcoins by solving extremely complicated math problems that verify transactions in the currency. When a bitcoin is successfully mined, the miner receives a predetermined amount of bitcoin.

PROSPECT

~~Prospecting the Future~~

Est. 2021

About Us

Our Goal

1. Equitize
2. Innovate
3. Excel
4. Grow

Prospect is a Cryptocurrency mining company that collects cutting edge technology in order to accumulate wealth through helping the respective Crypto networks. We want to allow ANYONE to be able to invest in these emerging markets and are just getting started with an initial funding round of 500,000 USD! We are always looking to partner and if you are interested in our idea please let us know

Our Options

1. Bitcoin
2. Ethereum
3. Ravencoin
4. Ergo
